# Chemical Safety Data Sheet MSDS / SDS

# KAOLIN

Revision Date:2025-01-06 Revision Number:1

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

# **Product identifier**

Product name	: KAOLIN			
CBnumber	: CB6300504			
CAS	: 1332-58-7			
EINECS Number	: 310-194-1			
Synonyms	: KAOLIN,CLAY			
Relevant identified uses of the substance or mixture and uses advised against				
Relevant identified uses	: For R&D use only. Not for medicinal, household or other use.			
Uses advised against	: none			
Company Identification				
Company	: Chemicalbook			
Address	: Building 1, Huihuang International, Shangdi 10th Street, Haidian District, Beijing			
Telephone	: 400-158-6606			

# SECTION 2: Hazards identification

# Classification of the substance or mixture

Not classified.

Label elements	
Pictogram(s)	
Signal word	No signal word
Hazard statement(s)	
none	
Precautionary statement(s)	
Prevention	
none	
Response	
none	
Storage	
none	
Disposal	

1

# Other hazards

no data available

# SECTION 3: Composition/information on ingredients

#### Substance

Product name	: Kaolin
Synonyms	: KAOLIN,CLAY
CAS	: 1332-58-7
EC number	: 310-194-1
MF	: H2AI2O8Si2.H2O
MW	: 258.16

# SECTION 4: First aid measures

#### Description of first aid measures

#### lf inhaled

Fresh air, rest.

#### Following skin contact

Rinse and then wash skin with water and soap.

#### Following eye contact

Rinse with plenty of water for several minutes (remove contact lenses if easily possible).

#### **Following ingestion**

Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a doctor or Poison Control Center immediately.

#### Most important symptoms and effects, both acute and delayed

Exposure Routes: inhalation, skin and/or eye contact Symptoms: Chronic pulmonary fibrosis, stomach granuloma Target Organs: respiratory system, stomach (NIOSH, 2016)

#### Indication of any immediate medical attention and special treatment needed

Immediate first aid: Ensure that adequate decontamination has been carried out. If patient is not breathing, start artificial respiration, preferably with a demand valve resuscitator, bag-valve-mask device, or pocket mask, as trained. Perform CPR if necessary. Immediately flush contaminated eyes with gently flowing water. Do not induce vomiting. If vomiting occurs, lean patient forward or place on the left side (headdown position, if possible) to maintain an open airway and prevent aspiration. Keep patient quiet and maintain normal body temperature. Obtain medical attention. Poisons A and B

# **SECTION 5: Firefighting measures**

# Extinguishing media

In case of fire in the surroundings, use appropriate extinguishing media.

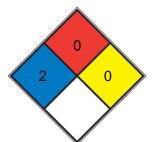

## **Specific Hazards Arising from the Chemical**

Not combustible.

#### Advice for firefighters

In case of fire in the surroundings, use appropriate extinguishing media.

## **NFPA 704**

HEALTH	2	Intense or continued but not chronic exposure could cause temporary incapacitation or possible residual injury (e.g. <u>diethyl</u> <u>ether</u> , ammonium phosphate, iodine)
FIRE	0	Materials that will not burn under typical fire conditions, including intrinsically noncombustible materials such as concrete, stone, and sand. Materials that will not burn in air when exposed to a temperature of 820 °C (1,500 °F) for a period of 5 minutes.(e.g. Carbon tetrachloride)
REACT	0	Normally stable, even under fire exposure conditions, and is not reactive with water (e.g. helium, M2)
SPEC. HAZ.		

# SECTION 6: Accidental release measures

# Personal precautions, protective equipment and emergency procedures

Personal protection: particulate filter respirator adapted to the airborne concentration of the substance. Sweep spilled substance into covered containers. If appropriate, moisten first to prevent dusting.

## **Environmental precautions**

Personal protection: particulate filter respirator adapted to the airborne concentration of the substance. Sweep spilled substance into covered containers. If appropriate, moisten first to prevent dusting.

#### Methods and materials for containment and cleaning up

Spillage Disposal: Personal protection: particulate filter respirator adapted to the airborne concentration of the substance. Sweep spilled substance into covered containers. If appropriate, moisten first to prevent dusting.

# SECTION 7: Handling and storage

# Precautions for safe handling

Handling in a well ventilated place. Wear suitable protective clothing. Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Use non-sparking tools. Prevent fire caused by electrostatic discharge steam.

# Conditions for safe storage, including any incompatibilities

Kaolin should be stored in a well-closed container in a cool, dry place.

# SECTION 8: Exposure controls/personal protection

## **Control parameters**

#### **Occupational Exposure limit values**

TLV: (respirable fraction): 2 mg/m3, as TWA; A4 (not classifiable as a human carcinogen).MAK: carcinogen category: 3B

#### Biological limit values

no data available

#### **Exposure controls**

Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Set up emergency exits and the riskelimination area.

#### Individual protection measures

Eye/face protection

Wear safety spectacles.

Skin protection

Protective gloves.

**Respiratory protection** 

Avoid inhalation of dust and mist. Use local exhaust or breathing protection.

#### Thermal hazards

no data available

# SECTION 9: Physical and chemical properties

# Information on basic physicochemical properties

Physical state	Powder
Colour	75-96, Hunter Brightness
Odour	When moistened develops a clay-like odor
Melting point/freezing point	1750°C
Boiling point or initial boiling point and	no data available
boiling range	
Flammability	Noncombustible Solid
Lower and upper explosion	no data available
limit/flammability limit	
Flash point	no data available

Auto-ignition temperature	no data available
Decomposition temperature	no data available
рН	6-7 (50g/l, H2O, 20°C)(slurry)
Kinematic viscosity	Low viscosity
Solubility	Practically insoluble in diethyl ether, ethanol (95%), water, other organic solvents, cold dilute acids,
	and solutions of alkali hydroxides.
Partition coefficient n-octanol/water	no data available
Vapour pressure	0 mm Hg (approx) (NIOSH, 2016)
Density and/or relative density	2.53 (true specific gravity)
Relative vapour density	no data available
Particle characteristics	no data available
•	

# SECTION 10: Stability and reactivity

# Reactivity

No rapid reaction with air No rapid reaction with water

# **Chemical stability**

no data available

# Possibility of hazardous reactions

Not combustible.KAOLIN is stable and chemically unreactive under ordinary conditions.

#### Conditions to avoid

no data available

## Incompatible materials

None reported

# Hazardous decomposition products

no data available

# SECTION 11: Toxicological information

## Acute toxicity

- Oral: LD50 Rat oral >5000 mg/kg bw
- Inhalation: no data available
- Dermal: no data available

#### Skin corrosion/irritation

no data available

## Serious eye damage/irritation

no data available

## Respiratory or skin sensitization

no data available

#### Germ cell mutagenicity

no data available

#### Carcinogenicity

A4; Not classifiable as a human carcinogen.

#### **Reproductive toxicity**

no data available

# STOT-single exposure

May cause mechanical irritation.

## STOT-repeated exposure

Lungs may be affected by repeated or prolongated exposure to dust particles. This may result in fibrosis (kaolinosis).

#### Aspiration hazard

A harmful concentration of airborne particles can be reached quickly when dispersed.

# SECTION 12: Ecological information

### Toxicity

Toxicity to fish: no data available Toxicity to daphnia and other aquatic invertebrates: no data available Toxicity to algae: no data available Toxicity to microorganisms: no data available

## Persistence and degradability

no data available

## **Bioaccumulative potential**

no data available

#### Mobility in soil

no data available

#### **Toxics Screening Level**

The initial threshold screening level (ITSL) for kaolin is 20 µg/m3 based on an 8-hour averaging time.

# Other adverse effects

# SECTION 13: Disposal considerations

## **Disposal methods**

#### Product

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

#### Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

# **SECTION 14: Transport information**

# **UN Number**

ADR/RID: Not dangerous goods. (For reference only, please check.) IMDG: Not dangerous goods. (For reference only, please check.) IATA: Not dangerous goods. (For reference only, please check.)

#### **UN Proper Shipping Name**

ADR/RID: Not dangerous goods. (For reference only, please check.) IMDG: Not dangerous goods. (For reference only, please check.) IATA: Not dangerous goods. (For reference only, please check.)

## Transport hazard class(es)

ADR/RID: Not dangerous goods. (For reference only, please check.) IMDG: Not dangerous goods. (For reference only, please check.) IATA: Not dangerous goods. (For reference only, please check.)

#### Packing group, if applicable

ADR/RID: Not dangerous goods. (For reference only, please check.) IMDG: Not dangerous goods. (For reference only, please check.) IATA: Not dangerous goods. (For reference only, please check.)

## **Environmental hazards**

ADR/RID: No IMDG: No IATA: No

#### Special precautions for user

no data available

# Transport in bulk according to IMO instruments

no data available

# **SECTION 15: Regulatory information**

## Safety, health and environmental regulations specific for the product in question

European Inventory of Existing Commercial Chemical Substances (EINECS)

Listed. **EC** Inventory Listed. United States Toxic Substances Control Act (TSCA) Inventory Listed. China Catalog of Hazardous chemicals 2015 Not Listed. New Zealand Inventory of Chemicals (NZIoC) Listed. PICCS Listed. **Vietnam National Chemical Inventory** Listed. IECSC Listed. Korea Existing Chemicals List (KECL)

Listed.

# **SECTION 16: Other information**

#### Abbreviations and acronyms

CAS: Chemical Abstracts Service

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road

RID: Regulation concerning the International Carriage of Dangerous Goods by Rail

IMDG: International Maritime Dangerous Goods

IATA: International Air Transportation Association

TWA: Time Weighted Average

STEL: Short term exposure limit

LC50: Lethal Concentration 50%

LD50: Lethal Dose 50%

EC50: Effective Concentration 50%

#### **Other Information**

This card applies to kaolin containing <1% crystalline silica.Depending on the degree of exposure, periodic medical examination is

suggested. If kaolin contains more than 1% crystalline silica then see also ICSC0808 Quartz.
